

Mandatory System Based Attendance

To maintain accurate and reliable attendance records, we have already implemented check-ins, check-outs, and break entries in the Hubble application.

All employees are requested to use their systems (laptops) for all check-in, check-out, and break entries. Please refrain from using mobile devices for these actions, including recording short and long breaks.

This change is necessary to ensure the consistency and integrity of our attendance data. Your cooperation is greatly appreciated and will help us maintain a seamless and efficient attendance tracking process.

In cases where you are unable to access your system for unplanned time off or day offs, you can apply via mobile without any restrictions. If you are unable to access both your system and mobile, please inform your reporting persons, who can apply for time off/day off on your behalf.

Please make a note of below for reference:

Case for applying Time Off or Day off	If planned	If unplanned and having system	If unplanned and not having system but having mobile	If unplanned and not having system & mobile
Mode	Only System	System	Mobile	To Inform reporting person to apply

Note:

1. All the Check-ins, Check-outs and Breaks need to be applied only through System.
2. Avoid applying for short/long breaks immediately after your check-ins at the start of the day.
3. Please be advised that using mobile devices for activities like check-ins, check-outs, and breaks is discouraged. Non-compliance will result in a yellow card issued through the instant evaluation system.

If you have any questions or need further assistance, please feel free to reach out to the HR Team.

Thank you for your understanding and compliance.
